

Dear FCC:

It's been brought to my attention that the FCC is proposing to expand it's LPFM service in a way that would take priority over current FM translator service. I understand that this would very possibly displace the current national K-LOVE station that I listen to almost exclusively. What a fabulous station it is, providing christian radio to a huge market with almost no other alternatives! As a committed financial contributor to K-LOVE radio, I make a sincere, wholehearted request that you preserve the life of this positive, encouraging, and unparalleled radio station.

Sincerely,
Jennifer Newell
